## Council Makes Way for Lutheran Church

The council of the town of St. Albert approved the replot of Strand Place which will provide for a church site for Wisconsin Evangelical Lutheran Church at their meeting held on Nov. 27.

First reading was given to a number of by-laws. By-law No. 43-67 for the borrowing of \$3,500 for the installation of a rope ski tow on Mission Hill.

By-law No. 44-67 for \$6,500 for various landscaping and parks works such as the civic centre, natural park land between Father Lacombe and Simpson schools and the re-forestation of Grandin sub-division.

By-law 45-67 for \$12,800 for construction of nine sub-division walk-ways. These will cut through residential areas and provide shorter routes for those walking without persons having to cross private property.

These by-laws will now be submitted to the L.A.B. and then will be advertised.

By-law No. 48-67 amending the by-law governing the installation of the use of gas piping. This will provide for a minimum sized pipe of one and a quarter inches. Previously the pipe to the building could be one inch and this is not sufficient for additional hook-ups as for garages and so on.

By-law No. 49-67 was introduced to reduce minimum side yard from four to three feet. This means space from main building to garages and accessory buildings.

Edmonton regional planning board budget was accepted. St. Albert's cost is \$2,710.

## Paul Kane Boys off to Calgary

On Nov. 18 both the boys' and girls' teams from Paul Kane High School won the area finals, defeating St. Albert High School and Salisbury. On Nov. 25 at the play-off finals of the North Central League in Fort Saskatchewan the girls came in second, losing out by a narrow margin to Fort Saskatchewan High School.

The Paul Kane boys won and this weekend are going to Calgary for the Provincial "B" Volleyball Championship.

The council adopted a committee recommendation for a town crest. A by-law will be prepared to formally accept same.

An appeal from L. Sawka was approved respecting the development officer decision on the installation of a tower type TV antenna.

PETER LOUGHEED, MLA

Robert Stanfield, national leader of the Progressive Conservative Party and leader of the opposition in the house of commons, and Peter Loughheed, leader of the opposition in the provincial government and leader of Alberta's Progressive Conservatives, were the key speakers at the provincial party's annual convention.

Mr. Lambert is the member for Edmonton-west which takes in St. Albert and Mr. Caston is the newly elected member for Jasper-Edson which takes in Sturgeon MD and the town of Morinville and villages of Legal, Gibbons and Bon Accord.

Over 1,000 were in attendance at the banquet and stayed to hear the speeches Mr. Stanfield was introduced by Dr. Hugh Horner, former MP from Jasper-Edson and now MLA for Lac Ste. Anne Constituency.

Sturgeon General Hospital  
St. Albert Alberta  
2012 West 20th Street East & Fort Road

Architects Drawing

The board of the Hospital District No. 100 has again come up with drawings for the new 100 bed Sturgeon General Hospital. The plans were taken to the minister of health, Dr. J. Donavan Ross, on Nov. 23 and it is hoped they will be approved in two weeks to avoid any further delays. If the plans receive the approval of the department of health then tenders could be called in March which would make it possible for construction to start in June providing new set backs do not arise. The new plans call for a building to cost approximately two and a half million dollars with an area for 72,900 square feet. The hospital is designed with all service departments and ancillary treatment and diagnostic departments at one level which forms the base for a three storey tower housing the nursing units. The hospital will be located

on the north side of the property where it will have a fine view of the countryside and will be a symbol and a beacon to the citizens of the community to the south. Provision has been made for the one hundred beds in the following categories. Medical, 40; pediatrics, 15; surgical, 25; obstetrics 20. The drawings presented to Dr. Ross represent the culmination of the work of the hospital board, the administrator, the architects and their medical advisors. They are modified from the original plans and place less emphasis on future expansion of the facility to 300 beds. Modest expansion is still possible at the periphery of the ground floor and it is recommended that the structure be designed to take another nursing floor at a future date.

Jasper-Edson's newly elected member of the House of Commons was sworn in Tuesday, Nov. 21, at 11 o'clock by Mr. Alistair Fraser, clerk of the House of Commons, while National Leader of the Conservative Party, the Hon. Robert Stanfield looks on, Mr.

Caston was presented to the House at 2:30 that afternoon by the Conservative Leader and the Hon. Marcel Lambert of Edmonton West. After bowing to the Speaker, he was escorted to his seat by Reynold Rapp, the Conservative Party Whip in the House of Commons.

## Letters to the Editor

### Nomination Sought

Re: The Canadian Centennial Medal, 1967.

The director of special services, department of education, has advised our school superintendent, Dr. J. W. Chalmers that a commemorative medal has been struck and will be distributed this year to Canadians from many walks of life who have rendered valuable service to Canada. The medal has been approved by the Queen on the recommendation of the government of Canada.

On the basis of allotment the St. Albert Protestant Separate School District is entitled to make one nomination for the Centennial Medal from amongst its teachers, supervisors or school administration.

The Government of Canada suggests that the following be used as a guide. "In considering names it is well to reflect that valuable service is often given by the humble as well as the great, that popularity is not in itself a proof of merit, and that devoted service over the long haul may outweigh a single striking performance. Nominations should therefore be made on a basis of both quality and length of service. Service in the Armed Forces as well as civilian life should of course, be taken into account."

A local nomination committee has been formed, including membership from the school board and the Alberta teachers' association local. To help this committee make the final nomination for this honor, it is suggested that parents, fellow teachers and students make recommendations.

these recommendations should include supporting criteria in line with the guide suggested above, and should be in the hands of the committee by Dec. 11, or sooner. They may be mailed or delivered to Dr. William D. Cuts, chairman of education committee, 6 Green Grove Drive, William D. Cuts, M.D.

### Veteran's Spirit Dead

The fighting spirit that carried Canada's Forces through two major wars and various small engagements no longer exists. There is no esprit de corps left among ex-servicemen -- they no longer care about their country, their fellowman or their community.

That was the conclusion that members of our local branch of The Royal Canadian Legion came to. Meeting after meeting was practically unattended. The only conclusion that those attending could come to was that St. Albert veterans no longer had any interest in the principles of the Royal Canadian Legion.

"Nonsense" says Alex Bayrak, zone commander of the Legion. "There is a potential membership of 500 in St. Albert and district. We will hold a meeting open to all veterans of Canadian and Allied Forces -- you will see."

One who Believes.

### LAND OF MAKE BELIEVE

This year's fun-filled Junior Orange Bowl Festival stretching between Dec. 9 and 28 in Coral Gables has as its theme, "Land of Make Believe". Thousands of children will take part in the various activities.

Time is running out for those cattlemen who have not yet treated their cattle for Warble Control.

All systemic insecticides must be applied prior to Dec. 1 to ensure that adverse effects on cattle do not occur. Those farmers who planned to treat their cattle and did not do so yet must do this before the week is out.

Don England, Fieldman with the M.D. of Sturgeon stated that the control area in Division 5 has been a resounding success with virtually every farmer in the area treating all cattle, with only dairy cattle not being treated. These animals, together with the beef herds that may have been missed will be sprayed in April to kill any grubs that may have appeared.

### Sergeant Norman Fuchs Honored

SERGEANT NORMAN FUCHS

Recently Sergeant Norman Fuchs, son of Mr. and Mrs. Bernard Fuchs of Morinville received the Centennial Medal from the State Department in Ottawa with the following citation:

"On the occasion of the One Hundredth Anniversary of the Confederation of Canada, the Centennial Medal is conferred on Sergeant Norman Leonard Fuchs in

recognition of valuable service to the nation, July 1, 1967.

Sergeant Fuchs is now 36 years old and has served 17 years in the R.C.M.P. In recent years he has been stationed in Nelson B.C. He is married to the former Miss Norma Seymour and has a son, Robert.

### MLA Chairs Recreation Meeting

On Nov. 27 in the Morinville Centre, some 85 people attended a meeting called by Keith Everitt, M.L.A. for the St. Albert constituency. The guest speaker was Jack Riddell of the department of youth.

The subject of particular interest to all present, was the information given on the new recreation grant schedule which will become effective April 1, 1968.

Mr. Riddell gave a detailed and illustrated talk on the subject which was followed by an open question

period. On Nov. 26 the Christian Ladies entertainment committee for the Senior Citizens at the Chateau Sturgeon held a Bingo for everyone interested. The prizes were donated by the business places. The delicious lunch was brought by a number of ladies.

The lucky winners were Mrs. Maurice Pelletier, Mrs. Leo de Champlain, Philippe Prefontaine, Miss Rachelle Prefontaine, Mrs. Rock Regimbald, Tony Pelletier, Eddy Rivard, Father Ricard, George Prefontaine, Tony Pelletier, Daniel Rivard and Mrs. Jos L'Heureux. The lucky door prize winner was Camille Deslauriers.

period.

The result was that a meeting will soon be called by Mr. Everitt on the suggestion of Walter Van de Walle who represented the M.D. Council.

Those chosen to represent various municipal bodies in the M.D. of Sturgeon and make up a steering committee were: M. D. of Sturgeon, Walter Van de Walle; Town of St. Albert, Andre Gate; Town of Morinville, Councillor Frank Sale; Town of Legal, Frank Rivard; Vill-

Winners of awards at the Legal 4-H Clothing Club Centennial banquet. Left to right: Mrs. Claire Demers, Wendy Montpetit, Simone Demers and Sylvia Auger.

### Legal 4-H Centennial Banquet

One of the Legal 4-H Clothing Club Centennial projects was realized on Nov. 21 when the club held their Grandmother, Mother and Daughter Centennial Banquet at the Recreation Centre. The fifteen members were present and accompanied by their mothers and many grandmothers.

The banquet room was decorated with the 4-H colors and emblems.

To open the evening the National Anthem was sung accompanied at the piano by Carmen Boissonneault.

Chairman for the evening was Miss Cecile Caouette who called upon everyone to recite the 4-H Grace before the meal followed by a toast to the Queen presented by Rita Tieulle. Italian Spaghetti was prepared by Mrs. Jos Paquin. Mrs. Della Piquette, Mrs. Leo Charrois and Mrs. Frank Prefontaine helped the ladies to serve.

Seated at the head table was Miss Rita Tieulle, Mrs. Leon St. Martin, Mrs. Emile Prefontaine, Miss Judy Murta, Miss Cecile Caouette, Mrs. Hemsing, Miss Lida Rees, Mrs. Ben St. Martin and Miss Rachel St. Martin. The chairman introduced the head table, then asked every

member to introduce their grandmother, mother and themselves. Dolores Prefontaine read a poem dedicated to the mothers and proposed a toast in their honor.

Mrs. Ben St. Martin responded on behalf of all the mothers. She thanked Dolores and expressed their gratitude for the work of the 4-H under the leadership of Mrs. Claire Demers and her assistants for the past five years that have proven that 4-H can accomplish a great deal. Mrs. St. Martin's comments and comparison between the "Miss Canada Pageant" contestants and the opportunities the 4-H members have.

These thoughts went through her mind while viewing the Pageant on television. First she said the five contestants modelled evening gowns, you in 4-H are learning to model for fashion shows on achievement day and television; second, the candidates had to perform in order to evaluate their talents, Miss Canada of 1968 chose public speaking and came out victorious, you are learning public speaking in 4-H; third, one contestant fash-

ioned a three in one outfit which she had designed herself, you are learning to sew your own garments. Fourth: Impromptu speeches were given by the five chosen girls again this training is offered in 4-H. Who Knows? We may have a Miss Canada among our 4-Hers someday. All you need extra is a "34-24-34" figure. The most important thing is you are learning to play, and work together to cooperate and give of yourselves.

The presentation of the provincial award for wardrobe planning saw Miss Judy Murta, assistant supervisor of the 4-H clubs for the province of Alberta, present Sylvia Auger with a silver sewing tray. Miss Murta encouraged the girls to continue working hard. She said it wasn't often that a club had a member win this award two years in a row. Last year this same award was won by Simone Demers.

Miss Lida Rees was then called upon to say a few words. She asked the girls if they every thought of looking back to see who was responsible and behind the guidance and leadership for their achievements and success in the past five years? No one else but Mrs. Claire Demers.

### Thank You

We wish to acknowledge and publicly thank Mr. and Mrs. W. Kennett who responded so quickly to a fire that went out of control and was raging on the farmstead recently. Also to Isler Construction crew who were working nearby, and sent a caterpillar to help us control the blaze. Thanks to the quick and generous response of all, the fire was under control within an hour. We are most grateful to those who helped us keep watch on the place until morning, to assure the safety of all the buildings and feed stacks during the windy night.

A sincere THANK YOU to all who called and offered to help.

Sylvia Auger receives a silver serving tray from Miss Judy Murta. This is a provincial award.

Miss Rees said she was delighted to present to the 4-H leader her Five Year Certificate from the Canadian Council of 4-H Clubs.

Mrs. Marilyn Hemsing, district home economist for Sturgeon, presented the T. Eaton Book Award to Wendy Montpetit. It is presented yearly to one of the outstanding members of the club. No member is eligible for the award twice.

Mrs. Leon St. Martin, wife of the mayor of Legal brought greetings on behalf of the Village and presented to Sylvia Auger and Simone Demers a 4-H trophy for the honor they brought to their club and the community.

Mrs. St. Martin surprised Mrs. Demers when she presented her with a walnut plaque with a gold scroll engraved with "Congratulations from the Village of Legal for her devotedness

as 4-H leader for the past five years", inscribed upon it.

On behalf of the Christian Ladies (Ladies of St. Anne) sponsors of the club, Mrs. Emile Prefontaine, president, presented Sylvia and Simone with a cut glass dish, trimmed in silver with matching spoon for a token of appreciation and encouragement. ## Chamberland-Sequin Wedding

The Annunciation Church was the setting of a recent wedding of Carol Chamberland, daughter of Mr. & Mrs. A. Chamberland of Legal, to Mr. Richard Sequin son of Mr. & Mrs. W. Sequin. The Reverend John Cunningham officiated at the double ring ceremony. The church was decorated with bouquets of white gladioli, and blue shasta mums.

Given in marriage by her father the bride chose a floor length cut velvet gown. The bodice had a scooped neckline with long lily point sleeves. Her long detachable train was held by a bow and fell gracefully to the floor. Her headpiece was a rhinestone tiara which held her tulle bouffant veil. She carried a cascade bouquet of red roses.

# Have you ever wondered...

...where medical aid would come from if your community should suffer a disaster?

Disasters can range from a nuclear attack to a multi-car highway accident, from a flood to an industrial explosion, but all have one thing in common: the immediate and vital need for medical supplies and equipment. To make sure that the required equipment and personnel are on hand when needed is the responsibility of the Emergency Health Services of the Alberta Department of Health. Twenty-two hundred bed emergency hospitals, packaged and ready to be transported and erected wherever needed, are being strategically stored in the province by this agency. These units are designed to replace bed and medical facilities which might be destroyed in a nuclear attack, and to supplement inadequate local facilities in the event of major civil disaster. Advanced Treatment Centres are also maintained by the Emergency Health Services to provide first life-saving techniques and patient-sorting following a nuclear attack. Each large city hospital has disaster teams which would assist local medical personnel if required during a large disaster outside Calgary and Edmonton. To further supplement emergency equipment available locally, twenty Casualty Collecting Units have been divided into thirds, providing 60 municipalities throughout the province with stretchers, blankets, first aid

supplies, burn dressings and water bottles. The distribution and use of all this equipment, which is supplied by the federal government, is controlled by the Emergency Health Services, working with the Alberta Emergency Measures Organization.

...what type of recreation program would be best for your community?

There's no need to wonder about it; many specific answers are available through a Recreation Interests Inventory. The Recreation Branch of the Alberta Department of Youth, through the area consultants can provide guidance and assistance in this inventory. Any interested community can request that an inventory be carried out in their area and the Branch may assist in developing the questionnaires and in supplying the personnel to co-ordinate the project and to evaluate the answers, at the cost to the community of materials only. To further aid in setting up a comprehensive recreation service, the Branch assists in surveying the physical facilities available; (i.e. schools, community centres, campgrounds, sport fields, playgrounds) as well as present programs. The final evaluation of the complete findings of the assessment is submitted to the local Recreation authority for their decision. The Recreation authority then may request further advice and, if necessary, financial assistance from the Recreation Branch.

...where an Alberta manufacturer can obtain the financial assistance required to buy the materials he needs at the most advantageous time and in the most economical quantity?

Qualified Alberta manufacturing firms, unable to obtain sufficient financial assistance from other sources, can apply to the Alberta Commercial Corporation for the funds they need to build up inventories of raw materials or standard component parts. The Corporation will purchase the material in quantity, arrange for storage and release it for cash payment as it is required. Funds are also made available to qualified manufacturers who require production equipment or land and buildings to enlarge their facilities. Firms applying for assistance from the Alberta Commercial Corporation also receive expert guidance and direction to those government agencies which can best advise them on such matters as markets and natural resources.

...how, today, fewer farms are producing more food?

Partly because, today, the principles of engineering are being applied to the practice of agriculture. Alberta farmers have the assistance of trained agricultural engineers in producing the largest quantity of food with the least number of man hours. Working through the offices of District Agriculturists the Agricultural Engineering Branch of the Extension and Colleges Division, Alberta Department of Agriculture,

offers help in such forms as plans for livestock buildings; advice on installation of private water systems and water treatment plants, sewage disposal and electrical installations, drainage of farm lands, gully filling and conservation. They aid in planning new farmsteads for maximum mechanization to reduce time and work in operations like feed handling, manure disposal and bulk storage of fertilizer. Tractor maintenance schools and field days held by the Branch also help teach those engineering ideas which have played a major role in making agriculture one of Alberta's most efficient industries.

...who provides "bed and board" for Alberta's entries at the Royal Agricultural Winter Fair in Toronto?

Alberta's animal representatives at the "Royal" live in style and comfort from the moment they become part of the province's display until they return home again, with feed and bedding provided by the Alberta Department of Agriculture. In addition, the Department co-ordinates with the Breed Association, the selection of animals to be entered, arranges with the railway for rolling stock, outfits the cars, correlates loading times and locations and pays freight costs, 75 per cent of which are reimbursed by the federal government. The

province supplies assistance to exhibitors for this occasion because this is the only agricultural fair in Canada considered to be national in scope.

...why all Alberta movies are classified?

Classification of motion pictures shown in Alberta is a method of advising moviegoers throughout the province as to what kind of entertainment they can expect when they "go to the show". Advertising for any movie must bear the classification which has been assigned to it by the provincial Board of Censors so that everyone will be aware of the type of picture it is. There are three classifications: "Family" — movies to which even the youngest children are admitted unaccompanied. "Adult" — restricts admission to people over age 16 unless accompanied by a parent or bona fide guardian, usually due to frightening, violent or sexual themes. Such films may be seen by children but an adult must be available to provide explanations if they are required. "Restricted Adult" — allows admission only to theatre-goers over age 18. This classification allows films with controversial themes to be seen by adults and warns patrons with special sensitivities that the subject matter may offend them. "Restricted Adult" films are not permitted at drive-in theatres.
